FOUR ICE BARONS GIVE BAIL BONDS.

"ALL RIGHT!" SURE ENOUGH!

Devoe, Kavanaugh and 4 Bauer Appear Before Magistrate Zeller in Jefferson Market, but Church Was III at Home.

Four of the members of the Ice Trust who were given until to-day to furnish \$2,000 bail each for conspiracy failed to appear on time in Jefferson Market 'ourt this afternoon before Magistrate Zeller, and he was just about to order the issue of warrants for their arrest when a trust lawyer assured him that they would soon make their appear-

President Morse has already furnished bond and the men whose cases were under consideration to-day are Charles Devoe, John L. Kavanagh, John Baue. and Charles B. Church.

time," said the Magistrate.

All of the defendants were in cour shortly after 2 o'clock except Charles B. Church, a director. He, it was explained by his counsel, was seventy years old and very feeble. The magistrate excused Church's attendance in

Two of the defendants. Devoe and Bauer, directors in the Ice Trust, looked ridiculously young as they lined up with the older director to sign the ball bonds. Devoe appeared to be scarcely seventeen years old, with his almost giri-ishly round face, and light hair parted in the middle. He was visibly nervous, and when his name was called every particle of color left his face. When a court policeman happened to jostle him as he stood by the rail Devoe recoiled as though the officer were about to handeuff him and lock him in a dun-

The greatest eclipse of all! This is he tenor of all reports, official and Many photographs of the corona," and two solar protuberances or knobs, have been obtained. Prof. Pickering, of Yale, is enthusi astic over the clear-cut pictures of

men have taken at Washington, Ga. Prof. Robbins also was successful in observing the solar protuberances. In fact, all over the strip of totality, extending from New Orleans, La., to Norfolk, Va., these red protuberances were plainly visible.

The corona was similar to that of 1889, and the moon tables were found to be slightly incorrect.

The moon's shadow was plainly seen on the sky and the wonderful light surrounding the sun closely ob-

THE OFFICIAL REPORT.

Prof. Skinner, of the Navni Observatory, Tells About the Eclipse.

PINEHURST, N. C., May 28.-Prof. A. N. Skinner, in charge of the Naval Observatory party here, gave out the following official statement after the eclipse:

"The sun rose clear and the sky was unobscured by clouds. The delicate apparatus was in perfect adjustment. The first contact occurred at the predicted time, 1.M. Our work was accomplished in the short time of ninety-four seconds. "Five spectrum photographs were obtained with the flat grating and the concave grating by Dr. Ames and his assistants, Huff, Gilbert and Reese, Dr. Chase, of Yale, obtained four fine spec-trum photographs with the objective Chase, of Yale, obtained four fine specprism spectroscope.

"Fine photos of the outer corona were obtained with the six cameras on the polar axis by Gore, Ball, Echelberger, King, Caperton and Kent. Good drawings of the corona were made by Profs. Wood, Frisby and Yowell.

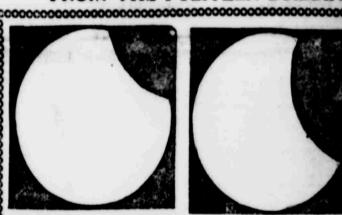

"Prof. Wood and Dr. Dorsey used polariscopes: Mr. Parsons took some valuable polariscopie photographs, and Mr. Colton took five fine photograph with the forty-foot lens. Everything passed off successfully. Every plan was executed."

WASHINGTON, Ga., May 3.-Prof. W. H. Pickering, at the head of Yale's expedition, has furnished the following statement:

"The weather here was perfect and the observations entirely satisfactory. We secured thirty-six plates with intramercurial apparatus and thirty-four with thirteen other cameras, aided by
